SESSION 2: 4.25 HOURS

- The waiver eligibility training is available for physicians interested in seeking their waiver to prescribe buprenorphine in the treatment of opioid use disorders. In order to be eligible for the waiver to prescribe, providers are required to take 8-hours of training.
- PCSS-MAT uses a Half-and-Half format in which 4.25-hours are attended face-to-face with an instructor and is combined with an “on your own” computer-based self-study consisting of 5 modules and a 24-question exam (3.75-hours). The combined face-to-face training and the online computer-study/exam provides the required 8-hours needed to obtain the waiver to prescribe buprenorphine in the office-based treatment of opioid use disorders. The link to access part 2 will be emailed to all participants who complete the 4.25-hour session in its entirety. **It is mandatory that all participants sign in at the beginning of the training and again at the end.** The AOAAM cannot verify your attendance unless both signatures are confirmed on the roster. Participants are required to complete part 2 within 30 days of receiving the link.
- Following the 8-hour completion, physicians who have successfully completed the course may apply to the Substance Abuse and Mental Health Services Administration (SAMHSA) to obtain the waiver. You will receive an email with directions on how to receive your certificate of completion and apply for the waiver.
- Residents may take the 8-hour course and apply for their waiver once they receive their medical degree and their own DEA #.
- Physician Assistants and Nurse Practitioners are also eligible for the waiver but only after 24-hours of required training have been completed. PAs and NPs are encouraged to participate in this 8-hour training, along with an additional 16-hours of training. The 16-hours can be accessed here:
<http://pcssmat.org/education-training/mat-waiver-training/>

This course has been reviewed and is acceptable for 4.25 credits of AOA Category 1A by the AOA CCME through the AOAAM. It has also been reviewed and is acceptable for 4.25 Prescribed credit(s) by the American Academy of Family Physicians.

Physicians should claim only the credit commensurate with the extent of their participation in the activity. AAFP Prescribed credit is accepted by the American Medical Association as equivalent to AMA PRA Category 1 Credit™ toward the AMA Physician's Recognition Award. When applying for the AMA PRA, Prescribed credit earned must be reported as Prescribed credit, not as Category 1.

Faculty Disclosures

None of the faculty, nor any spouse/partner, has any financial relationships with commercial interest to disclose.

TARGET AUDIENCE

This eligibility training is available for physicians interested in seeking their waiver to prescribe buprenorphine in the treatment of opioid use disorders. In order to be eligible for the waiver to prescribe, providers are required to take 8-hours of training. PCSS-MAT uses a Half-and-Half format in which 4.25-hours are attended face-to-face with an instructor and is combined with an “on your own” computer-based self-study consisting of 5 modules and a 24-question exam (3.75-hours). The combined face-to-face training and the online computer-study/exam provides the required 8-hours needed to obtain the waiver to prescribe buprenorphine in the office-based treatment of opioid use disorders. The link to access part 2 will be emailed to all participants who complete the 4.25-hour session in its entirety. It is mandatory that all participants sign in at the beginning of the training and again at the end. The AOAAM cannot verify your attendance unless both signatures are confirmed on the roster. Participants are required to complete part 2 within 30 days of receiving the link.

Following the 8-hour completion, physicians who have successfully completed the course may apply to the Substance Abuse and Mental Health Services Administration (SAMHSA) to obtain the waiver. You will receive an email with directions on how to receive your certificate of completion and apply for the waiver.

Residents may take the 8-hour course and apply for their waiver once they receive their medical degree and their own DEA #.

Physician Assistants and Nurse Practitioners are also eligible for the waiver but only after 24-hours of required training have been completed. PAs and NPs are encouraged to participate in this 8-hour training, along with an additional 16-hours of training. The 16-hours can be accessed here:

GUEST WI-FI FOR MEETING ATTENDEES

PHOENIX

Guest Wi-Fi is available from the University of Arizona College of Medicine Phoenix. Please note this is a public access network. Log-on instructions are as follows:

1. Select **UAGuest** from your wireless options. Open a web browser if one does not automatically open for you.
2. The **Welcome UAGuest** webpage will appear. **Click on Create an Account** at the bottom of the webpage. If the welcome screen does not show, navigate to another webpage to trigger the welcome webpage.
3. Enter your name and cell phone number (with hyphens, e.g., XXX-XXX-XXXX), then click **Register**.
4. A message will appear indicating a text message was sent to the cell phone number provided.
5. You will receive a text message containing your **assigned username and password valid for 5 days**.
6. **Enter your assigned username and password** on the **Welcome UAGuest** webpage and click **Sign on**.
7. Read the Acceptable Use Policy and click **Accept**. *You will now have access to UAGuest wireless internet.*

FLAGSTAFF

Guest Wi-Fi is available from Flagstaff Medical Center. Select FMC Guest network. No password is required.

TUCSON

UAGuest is a wireless network available to visitors of the University of Arizona. After visitors select the UAGuest network on their devices, they can establish UAGuest accounts by entering a username and phone number. The account will be valid for five days. After that time, visitors will need to establish a new account.

UAGuest is an **unsecured network**. Do not send private information such as credit card numbers over this network. UA students, faculty, and staff should use UAWiFi.

Request the Service:

Establishing An Account

- Select **UAGuest** from your wireless options.
- Open a web browser if one does not automatically open for you.
- The Welcome UAGuest webpage will appear.
- Click on **Create Account** at the bottom of the webpage.
- Enter your **name** and **cell phone number** (enter hyphens, e.g., XXX-XXX-XXXX).
- Enter 6 digit code.
- You will receive a text message containing your assigned username and password.
- Enter your **username** and **password** on the Welcome UAGuest webpage.
- Read the Acceptable Use Policy and click **Accept**.
- This login remains valid for 5 days.
